

### Surface Profile Gauge

Surface profile gauge is a battery operated model, which measures peak valley height of a blast cleaned surface. Average reading of measurement provides an indication of the surface roughness

**Standard: ASTM D 4417**

#### Digital Model

Range : 0 - 1 mm  
Accuracy : 1 micron ( 0.001 mm )  
Ref No: 404/1

Range : 0 - 10 mm  
Graduation : 1 micron ( 0.001 mm )  
Ref No: 404/2

#### Ordering Informations:-

Ref No. 404/1 Surface Profile Gauge range (0 - 1 mm)  
Ref No. 404/2 Surface Profile Gauge range (0 - 10 mm)

**HSN Code:** 9031
