

Abbe Refractometer

A simplified fast operating instrument for measuring refractive index and sugar percentage. The prism assembly is mounted in horizontal position.

For measuring refractive index and sugar percentage directly.

Range : Refractive index 1.3 to 1.7 nD
Sugar percent 0 to 95 %

Accuracy : Refractive index 0.001 direct & 0.0001 estimate.
Sugar percentage 10 on scale and 0.10 by estimate.
